Thursday

My dearest One

Your letter of Sunday night
and yesterday a.m. - did come by
the afternoon delivery - and I need
not add how welcome it was - I
was on the porch alone - so I sat
right down in a big rocking
chair and read it. And for the
time Geneva and the Russ were for-
gotten - I was with you - alone in
the brilliant sunshine of a day
like October - and you were telling
me all the things that are in
your mind - of what you were
doing in the different offices

Situations, in Hawaii, in Mexico
and abroad — and through it all
was running the love song that makes
every word you speak or write
music in my ears — and I was
happy —

Yes dearest one —
So great is the magic power of
love that with this daily record
of your thoughts and occupations
I can be happy though miles
and miles of space divide us —

I thank you for your patience
in explaining things to me so fully
in regard to the "Preparedness" — I do hope
the Secretaries of War & Navy have
given you their reports in such
digested form that you will not
have to make out the plan — but only

decide the method of putting it into
 action - Goodman thinks that is a big
 enough task, without having to expect
 the chair - I get seen, from what you
 had said about emergency - that you
 would not call on Ex-130 Service but did
 not know whether this emergency would
 make you feel it necessary - But if our
 grad you wait how that looks to how
 she along with other things I see
 in the Preliminary paper before that of our
 being urged by our other class mates -
 comes to return to Cornish by Sept. 1st
 to get all the rest you possibly can -
 So I hope this report is true -

Not see you any way and
you said yesterday - it was
bound to be away - So write
me what day you will go - So
I can send my letters to the right
place - And that brings me to

our trip to Ocean City on Friday -

As we expect to leave here about
10 Friday A.M. - I would get your
letter mailed Thursday - and that
will have to last over until Sunday
for I would not know how to tell
you to find me on Saturday - Mr.
Rose thinks now he will go from
here to Albany N.Y. - Spending the
first night there - then as far as
we can Campfire on Saturday
making the final trip to Ocean

City on Sunday - So you can
just send your Saturday and
Friday messages together to
the "Hotel Normandie by the Sea" ^{office}
Thursday - and I would put
them in the same envelope - and I
will get them on Sunday - if I can
get there, or certainly on Monday.

I shall miss you and your
dear message on Saturday, but I
think it would be useless to try
and get any parcel ~~to~~ to have
you send a letter, as making is
such an uncertain thing for
fixed parcels -

I am so thrilled at your ^{great}
to Haiti - and do hope your

the Latin Americans - as any doubt there
might embarrass some Mexican officials

There is nothing in the papers about
it yet, but I shall watch the Committee
with great interest - and, this being the
17th of the day the Congress expires so they
must act.

After getting your letter
I asked Mr. Page if he would get the
Herald of Sunday, yesterday & today for
me - and I am to have them tomorrow -
and see to eager to read the articles
regarding the German Fraysaganda.

Warrington - 10 August
It is now 12³⁰ Precious Anne - and I hope
that had a minute to call my am - and
now have to write in a rush. Quer dear,
letter, in answer to my letter one of Sunday
is full of tenderness and help - and I
express the challenge - and generously to
keep the faith - How perfectly you
understand always and know how
to make me feel your confessions

When the Postman came this
morning I felt sure you would
wonder being me what I wanted
and it did - Which it came also the
Big Envelope - which I will keep
until later to read contents - for
that will wait and my letter to
you must go - What a wonder
however really is! His com-
prehension is almost as keen as
yours and and his taste wonder-
ful - Besides your letter
I got this enclosed one from

Ralph in answer to our letter
of July 27th, and I feel his
worst representations were jus-
tified - as to the man's ancestry
etc. - and the only hope is that
he may not be as bad as
the rest of his family -

I hope you will understand
my sending you such a disgusting
record - but I feel Page's letter is
explained better than I could -
and I am sick at the horror
of what may be for Elizabeth
